INTRODUCTION

The OTHM Level 5 Extended Diploma qualifications provide learners with industry-specific and practical skills, enabling them to successfully apply their knowledge in the workplace, enhance their career prospects and allow progression to further study.

The OTHM Level 5 Extended Diploma qualifications are equivalent to the first and second years of a university degree. Learners will study level 4 and 5 units, worth 120 credits per academic year with a total credit value of 240 credits.

The Level 4 units lay the foundations of learning by providing an introduction to relevant topics. The Level 5 units allow learners to specialise and progress into specific occupational areas.

Key features of OTHM Level 5 Extended Diploma qualifications:

- A stimulating and challenging programme of study that will be both engaging and informative for learners
- Learners can gain the essential subject knowledge needed to progress successfully into further study or the world of work
- A simplified structure: learners undertake a core of learning in the Level 4 units and build on this knowledge in the Level 5 units
- Refreshed content that is closely aligned with employer and higher education needs
- Assessments that consider cognitive skills along with affective and applied skills
- OTHM set unit assignments and a varied approach to assessment that supports progression to Level 6
- Learners will develop knowledge and academic study skills including active research skills, effective writing skills, analytical skills, critical thinking, creative problem-solving, decision-making and digital literacy.

QUALIFICATION OBJECTIVES

The objective of the OTHM Level 5 Extended Diploma in Health and Social Care Management qualification is to equip learners with the underpinning knowledge, understanding and skills required for a career or further study in the health and social care sector at a managerial level. The programme enables learners to demonstrate their skills by producing evidence from their work or training activities.

Learners will study level 4 and 5 units, worth 120 credits per academic year with a total credit value of 240 credits (equivalent to the first 2 years of an honours degree). The Level 4 units lay the foundations of learning by providing an introduction to contemporary Health and Social Care topics.

The units combine both theoretical and practical knowledge in the profession and will develop and enhance knowledge and skills in the areas of equality, diversity, professional development, patient assessment, resource management, communication and health and safety.

The Level 5 units give learners the opportunity to progress in specific subject occupational areas. Learners will develop and enhance knowledge and skills in the areas of effective partnership working, managing the care of vulnerable individuals, team management, professional supervision practices and how to complete a research project.

Successful completion of this qualification will equip learners with industry-specific and practical skills, enabling them to successfully apply their knowledge in the workplace, enhance their career prospects and allow progression to further study.

QUALITY, STANDARDS AND RECOGNITIONS

OTHM Qualifications are approved and regulated by Ofqual (Office of Qualifications and Examinations Regulation). Visit the [Register of Regulated Qualifications](#).

OTHM has a progression arrangement with several UK universities that acknowledges the ability of learners after studying Level 3-7 qualifications to be considered for advanced entry into corresponding degree year/top up and Master's/top-up programmes.

REGULATORY INFORMATION

Qualification Title	OTHM Level 5 Extended Diploma in Health and Social Care Management
Ofqual Reference Number	610/0333/5
Regulation Start Date	07/01/2022
Operational Start Date	10/01/2022
Duration	2 years
Total Credit Value	240 Credits
Total Qualification Time (TQT)	2400 Hours
Guided Learning Hours (GLH)	1200 Hours
Sector Subject Area (SSA)	1.3 Health and social care
Overall Grading Type	Pass / Fail
Assessment Methods	Coursework
Language of Assessment	English

EQUIVALENCES

OTHM Level 5 Extended Diploma qualifications represent practical knowledge, skills, capabilities and competences that are assessed in academic terms as being equivalent to Higher National Diplomas (HND) and Year 2 of a three-year UK Bachelor's degree programme.

QUALIFICATION STRUCTURE

The OTHM Level 5 Extended Diploma in Health and Social Care Management qualification consists of 12 mandatory units, 240 credits, 2400 hours Total Qualification Time (TQT) and the recommended Guided Learning Hours (GLH) for this qualification is a minimum of 1200 hours.

To achieve the OTHM Level 5 Extended Diploma in Health and Social Care Management, learners must achieve 240 credits in total, of which 120 credits are at Level 4 (6 units) and 120 credits are at Level 5 (6 units).

If a learner does not complete the full Level 5 Extended Diploma qualification, they may be awarded the OTHM Level 4 Diploma in Diploma in Health and Social Care Management qualification if they have successfully passed all 6 mandatory units and gained 120 credits at Level 4.

A new registration for the learner will need to be made by the centre.

All units are mandatory.

Unit Ref. No.	Unit title	Level	Credit	GLH	TQT

J/650/1143	Research Methods in Health and Social Care	5	20	100	200

DEFINITIONS

Total Qualification Time (TQT) is the number of notional hours which represents an estimate of the total amount of time that could reasonably be expected to be required in order for a learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of a qualification.

Total Qualification Time is comprised of the following two elements –

- a) *the number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and*
- b) *an estimate of the number of hours a Learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but, unlike Guided Learning, not under the Immediate Guidance or Supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.*

(Ofqual 15/5775 September 2015)

Guided Learning Hours (GLH) are defined as the hours that a teacher, lecturer or other member of staff is available to provide immediate teaching support or supervision to a student working towards a qualification.

Credit value is defined as being the number of credits that may be awarded to a learner for the successful achievement of the learning outcomes of a unit. One credit is equal to 10 hours of TQT.

ENTRY REQUIREMENTS

These qualifications are designed for learners who are typically aged 18 and above. The entry profile for learners is likely to include at least one of the following:

- Relevant Level 3 Diploma qualification or equivalent qualification
- GCE Advanced level in 2 subjects or equivalent qualification
- Mature learners (over 21) with relevant management experience (learners must check with the delivery centre regarding this experience prior to registering for the programme)

English requirements: If a learner is not from a majority English-speaking country, they must provide evidence of English language competency. For more information visit the [English Language Expectations](#) page on the [OTHM website](#).

PROGRESSION

Successful completion of the OTHM Level 5 Extended Diploma in Health and Social Care Management, provides learners the opportunity for a wide range of academic progressions including the OTHM Level 6 Diploma in Health and Social Care Management.

As this qualification is approved and regulated by Ofqual (Office of the Qualifications and Examinations Regulation), learners are also eligible to gain direct entry into Year 3 of a three-year UK Bachelor's degree programme. For more information visit the [University Progressions](#) page.

DELIVERY OF OTHM QUALIFICATIONS

OTHM do not specify the mode of delivery for its qualifications, therefore OTHM centres are free to deliver this qualification using any mode of delivery that meets the needs of their learners. However, OTHM centres should consider the learners' complete learning experience when designing the delivery of programmes.

It is important that centres develop an effective delivery method to teaching and learning that supports the progression and stretch of learners through the level 4 and 5 units of the OTHM Level 5 Extended Diploma qualifications.

OTHM Centres must ensure that the chosen mode of delivery does not unlawfully or unfairly discriminate, whether directly or indirectly, and that equality of opportunity is promoted. Where it is reasonable and practicable to do so, it will take steps to address identified inequalities or barriers that may arise.

Guided Learning Hours (GLH) which are listed in each unit gives centres the number of hours of teacher-supervised or direct study time likely to be required to teach that unit.

ASSESSMENT AND VERIFICATION

All units within this qualification are assessed and internally quality assured by the centre and externally verified by OTHM. The qualifications are criterion referenced, based on the achievement of all the specified learning outcomes.

To achieve a 'pass' for a unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria. Judgement that the learners have successfully fulfilled the assessment criteria is made by the assessor.

Specific assessment guidance and relevant marking criteria for each unit are made available in the Assignment Brief document.

The assessor should provide an audit trail showing how the judgement of the learners' overall achievement has been arrived at.

Assessment Tracking and Recording Learner Progress

It is necessary to track and record learner achievement throughout the delivery period of the OTHM Extended Diploma and this should not be left until the end of the course.

This will include regular review of learner work through formative and summative assessment and internal quality assurance at planned intervals during the programme:

- before decisions have been made on any unit
- sampling evidence once one or two of the units or assignments are completed

Tracking learner progress, recording the achievement of each learner per criteria on a unit-by-unit basis ensures:

- the assessment evidence is clearly measured against national standards
- learner progress is accurately tracked
- the assessment process can be reliably verified
- evidence is valid, authentic and reliable for the safety of certification
- identification of which assessments are outstanding
- internal verification is timely
- samples for standards verification and other external audits can be made available as required
- up to date, securely stored assessment records help to minimise the risk of assessment malpractice and potential issues; maintaining the integrity of the qualification.

Tutors/Assessors should provide learners with formative and summative feedback to aid development during their studies.

Formative Assessment

Formative assessment is an integral part of the assessment process, involving both the Tutor/Assessor and the learner about their progress during the course of study.

Formative assessment takes place prior to summative assessment and focuses on helping the learner to reflect on their learning and improve their performance and does not confirm achievement of grades at this stage.

The main function of formative assessment is to provide feedback to enable the learner to make improvements to their work. This feedback should be prompt so it has meaning and context for the learner and time must be given following the feedback for actions to be complete. Feedback on formative assessment must be constructive and provide clear guidance and actions for improvement.

All records should be available for auditing purposes, as we may choose to check records of formative assessment as part of our ongoing quality assurance.

Summative Assessment

Summative assessment is used to evaluate learner competence and progression at the end of a unit or component. Summative assessment should take place when the assessor deems that the learner is at a stage where competence can be demonstrated.

Learners should be made aware that summative assessment outcomes are subject to confirmation by the Internal Verifier and External Quality Assurer (EQA) and thus is provisional and can be overridden. Assessors should annotate on the learner work where the evidence supports their decisions against the assessment criteria. Learners will need to be familiar with the assessment and grading criteria so that they can understand the quality of what is required.

Evidence of both formative and summative assessment **MUST** be made available at the time of external quality assurance – EQA.

RECOGNITION OF PRIOR LEARNING AND ACHIEVEMENT

Recognition of Prior Learning (RPL) is a method of assessment that considers whether learners can demonstrate that they can meet the assessment requirements for a unit through knowledge, understanding or skills they already possess and do not need to develop through a course of learning.

RPL policies and procedures have been developed over time, which has led to the use of a number of terms to describe the process. Among the most common are:

- Accreditation of Prior Learning (APL)
- Accreditation of Prior Experiential Learning (APEL)
- Accreditation of Prior Achievement (APA)
- Accreditation of Prior Learning and Achievement (APLA)

All evidence must be evaluated with reference to the stipulated learning outcomes and assessment criteria against the respective unit(s). The assessor must be satisfied that the evidence produced by the learner meets the assessment standard established by the learning outcome and its related assessment criteria at that particular level.

Most often RPL will be used for units. It is not acceptable to claim for an entire qualification through RPL. Where evidence is assessed to be only sufficient to cover one or more learning outcomes, or to partly meet the need of a learning outcome, then additional assessment methods should be used to generate sufficient evidence to be able to award the learning outcome(s) for the whole unit. This may include a combination of units where applicable.

EQUALITY AND DIVERSITY

OTHM provides equality and diversity training to staff and consultants. This makes clear that staff and consultants must comply with the requirements of the Equality Act 2010, and all other related equality and diversity legislation, in relation to our qualifications.

We develop and revise our qualifications to avoid, where possible, any feature that might disadvantage learners because of their age, disability, gender, pregnancy or maternity, race, religion or belief, and sexual orientation.

If a specific qualification requires a feature that might disadvantage a particular group (e.g. a legal requirement regarding health and safety in the workplace), we will clarify this explicitly in the qualification specification.

LEVEL 4 UNIT SPECIFICATIONS

PROMOTING EQUALITY, DIVERSITY AND INCLUSION IN HEALTH AND SOCIAL CARE

Unit Reference Number	K/650/1117
Unit Title	Promoting Equality, Diversity and Inclusion in Health and Social Care
Unit Level	4
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aim of this unit is to enable learners to develop strategies for implementing and leading excellence in practice in respect of equality, diversity and rights in a health and social care setting. The unit also explores how to manage risk and balance rights with duty of care in health and social care settings.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Understand equality, diversity, inclusion and human rights within the health and social care workplace.	1.1 Define the terms: <ul style="list-style-type: none"> • diversity • equality • inclusion • discrimination • unconscious bias • protected characteristics • human rights 1.2 Explain the legislation underpinning diversity, equality and inclusion in the health and social care sector.	<ul style="list-style-type: none"> • Definition of key terms: diversity, equality, inclusion, discrimination, unconscious bias, protected characteristics, human rights • Legislation: Main elements of legislation e.g. The Equality Act (2010); Mental Capacity Act (2005); Human Rights Act 1(998) • Models: valuing differences, treating people fairly; ensuring a positive working/environment culture; equal opportunities approach; diversity and

	<p>1.3 Explain the models of practice that underpin equality, diversity and inclusion.</p> <p>1.4 Explain the impact of barriers to equality, diversity and inclusion.</p>	<p>inclusion.</p> <ul style="list-style-type: none"> Impact of barriers: Structural, institutional and physical barriers. Prejudice; values beliefs and attitudes.
<p>2. Understand the development of systems that promote diversity, equality and inclusion.</p>	<p>2.1 Examine the effectiveness of policies in ensuring legislative requirements are met.</p> <p>2.2 Evaluate the effectiveness of procedures in promoting equality, diversity and inclusion in the workplace.</p>	<ul style="list-style-type: none"> Policies and procedures: anti-discriminatory and non-judgemental attitudes; good role modelling; training and supervision practices; challenging discrimination; effects of discrimination; impact of inclusion; the value of diversity and celebrating it; person centred ways of working.
<p>3. Be able to promote equality, diversity and inclusion.</p>	<p>3.1 Analyse how the promotion of equality, diversity, inclusion and human rights can lead to improved outcomes for individuals.</p> <p>3.2 Demonstrate how to communicate to others methods of promoting equality and inclusion within the workplace.</p> <p>3.3 Demonstrate how to support others to actively promote equality, diversity and inclusion within the workplace.</p> <p>3.4 Demonstrate how to effectively challenge discrimination and exclusion in policy and practice.</p>	<ul style="list-style-type: none"> Person centred ways of working: inclusion, choice, wishes and preferences being identified and met. Content of a well-designed policy that addresses discrimination and promotes a positive culture. Monitoring and reviewing a policy; communicating the policy. Whistle blowing, protected disclosures. Monitor for out of date practice, changes in legislation, and annual audits of policies. Findings from audits can identify gaps. Improvements can be proposed. Communicate to others: preparation of training resources; observation, reflective account, case study which was carried out or could be delivered in the work setting.
<p>4. Know how to manage risk and balance rights with duty of care.</p>	<p>4.1 Analyse how to address ethical dilemmas in the workplace when balancing individual rights with the duty of care.</p> <p>4.2 Explain the principles of informed choice and capacity.</p> <p>4.3 Demonstrate how to develop a strategy for managing risks while balancing individual rights and the duty of care owed to others in</p>	<ul style="list-style-type: none"> Ethical dilemmas: respect for dignity; justice; risk management; protect from harm; sound judgment and compassion. Duty of care, rights of individuals, NHS Constitution (2011) care standards documents, charters and professional codes of conduct, support individual decision making as far as possible, as long

	your own area of responsibility.	<p>as this does not infringe on the rights of others.</p> <ul style="list-style-type: none"> • The Mental Capacity Act (2005) statutory principles on identifying abilities and inabilities. Best interests. Lasting Power of Attorney. Advance decisions. Deputies and the Court of Protection.
--	----------------------------------	---

Assessment

To achieve a ‘pass’ for this unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria.

PROFESSIONAL DEVELOPMENT AND ACADEMIC WRITING SKILLS

Unit Reference Number	K/650/1144
Unit Title	Professional Development and Academic Writing Skills
Unit Level	4
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aim of the unit is to deepen learners' understanding of professional development and to help them explore their own development as a manager in health and social care. The unit also introduces learners to the skills necessary for academic writing, when engaging in continuous professional development.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative contents
1. Understand the principles of professional development.	1.1 Explain what is meant by professional development. 1.2 Explain ways of overcoming barriers to professional development. 1.3 Determine the different sources available for professional development. 1.4 Analyse factors to consider when selecting opportunities and activities for keeping knowledge and practice up to date.	<ul style="list-style-type: none"> • Definition of professional development, continuous process. • Professional Codes and Standards of conduct: The Health and Care Professions Council;) Standards of Conduct, Performance and Ethics, Nursing and Midwifery Council; The Code; Professional Standards of Practice and behaviour for nurses and midwives. • National Occupational Standards / Up-dates for Manual Handling etc. • Potential barriers: own attitudes, access to training, time, lack of resources, costs, different

		<p>learning styles.</p> <ul style="list-style-type: none"> ● Formal and informal sources of support for development: organised learning activities, experience in the work setting. Supervision, appraisal, mentoring, coaching, presentations and sharing good practice. ● Factors when considering professional development: allocation of budget, time, career goals, time off. ● Supporting others: open up discussion, observation of colleagues, share good practice.
<p>2. Be able to develop goals and targets for their own professional development.</p>	<p>2.1 Evaluate own knowledge against standards and benchmarks. 2.2 Create SMART goals and targets for own professional development. 2.3 Determine appropriate goals and targets to meet expected standards. 2.4 Assess learning opportunities to meet objectives and reflect personal learning style.</p>	<ul style="list-style-type: none"> ● Demonstrate they are working to standards; codes of conduct; regulations, National Occupational Standards. Health and Care Professions Council, Nursing and Midwifery Council, review own role, SMART Targets. ● Personal Analysis: SWOT (strengths, weaknesses, threats and opportunities) ● Setting Goals: set specific, measurable, achievable, realistic and time-bound (SMART) objectives: <ul style="list-style-type: none"> ○ Specific: Clear, unambiguous, straightforward, understandable ○ Measurable: Related to quantified or qualitative performance measures ○ Achievable: With known resources ○ Realistic: Linked to industry needs/standards ○ Time-bound: Building-in completion date and review dates ● Personal Objectives: this stage involves setting out your personal objectives. ● Learning style: use of learning inventory, learning styles questionnaire.

<p>3. Be able to prepare a professional development plan.</p>	<p>3.1 Produce a professional development plan. 3.2 Apply techniques to review progress toward personal and professional objectives.</p>	<ul style="list-style-type: none"> • Prioritise learning development, short and long term goals, objectives, dates for achievement, how you will achieve objectives, support required, evidence of outcomes. • Evidence that objectives have been met.
<p>4. Be able to use models of reflective practice to evaluate own development.</p>	<p>4.1 Compare models of reflective practice. 4.2 Apply reflective practice techniques to improve performance. 4.3 Evaluate the effectiveness of own reflective practice.</p>	<ul style="list-style-type: none"> • Models: e.g. Kolb, Johns, Gibbs, Jasper (2006), Schon (1983), reflection of behaviours and performance, feedback from others. • Improve performance through reflection on and reflection of practice; goal setting; improvement through use of evidence base practice; best practice • Is practice meeting the needs of individuals accessing services, and of the service; fitness for purpose; safe and current practice.
<p>5. Be able to apply appropriate academic conventions in written communication.</p>	<p>5.1 Explain the principles of academic writing. 5.2 Produce written work according to academic conventions. 5.3 Apply techniques to review on own academic writing skills.</p>	<ul style="list-style-type: none"> • Clarity; presentation skills; consideration of the intended audience; application of theories and concepts; objectivity; logical structure and flow; evidence based / references, accessibility; use of acronyms; use of first person; headings/subheadings; avoidance of slang or colloquial language; punctuation; grammar; avoiding contractions. • Harvard referencing conventions; citations; quotes; annotations; bibliography; reference lists; web references; accuracy. • Developing academic skills; understanding of plagiarism; paraphrasing and summarising; reflective learning; critical analysis

Assessment

To achieve a 'pass' for this unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria.

COMMUNICATION IN THE CARING PROFESSIONS

Unit Reference Number	L/650/1118
Unit Title	Communication in the Caring Professions
Unit Level	4
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aim of this unit is for the learner to build skills and knowledge in effective communication practices, recognising this as an important role of senior personnel working in a health or social care setting. The unit also introduces the role of systems and procedures in supporting safe and efficient use of information.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Know about the range of communication requirements in the workplace.	1.1 Explain different methods of communication to meet individual and organisational needs. 1.2 Describe strategies to overcome communication barriers.	<ul style="list-style-type: none"> • Definition of communication; communication cycle, group and individual communication; addressing communication needs; communication as a manager; meeting communication needs; supporting effective communication; barriers and challenges to communication; culture; values; language; conflict; resistance to change; power dynamics; self-esteem. • Personal issues; environmental issues; different viewpoints; poor listening skills. Overcoming barriers both environmental and

		<p>cultural. SOLE, overcoming internal barriers (emotional intelligence).</p> <ul style="list-style-type: none"> • Different modes of communication; verbal; paralinguistics; non-verbal; sign language, Makaton and Braille; assisted communication, written communication, electronic communication.
<p>2. Be able to use communication systems and practices in the workplace.</p>	<p>2.1 Evaluate communication systems and practices used in different settings. 2.2 Propose improvements to communication systems and practices used in health and social care. 2.3 Explain the impact of poor communication on health and social care management. 2.4 Demonstrate communication techniques to support effective practice.</p>	<ul style="list-style-type: none"> • Feedback from individuals, staff, visitors and others; implementation of a revised practice in communication systems in own setting. • Changes to practice, procedures; training empowerment; promotion of rights; maintaining confidentiality; personalisation • Loss of trust; confidentiality breach of regulations; • who can access records and who is excluded; • Situations for sharing information; boundaries to agreement; sharing of good practice
<p>3. Be able to use communication systems to facilitate partnership working</p>	<p>3.1 Demonstrate the use of communication systems to promote partnership working. 3.2 Compare the use of different communications systems for partnership working. 3.3 Recommend ways to improve communication systems used for partnership working.</p>	<ul style="list-style-type: none"> • Sharing of records when necessary/permitted/appropriate, e.g. electronic, written, email, fax, face-to-face; working effectively together with professionals, agencies, organisations to enhance supporting positive outcomes. • Use of records; sharing protocols; roles and responsibilities; sharing of resources
<p>4. Know how to use systems for information management.</p>	<p>4.1 Explain legal and ethical tensions in sharing information. 4.2 Explain how personal information is processed to meet legal requirements.</p>	<ul style="list-style-type: none"> • Shared communication systems; shared databases; records to promote consistency in care (service user's notes); email; letters; daily records of care/nursing/medical notes. • Confidentiality; sharing information; General Data Protection Regulation (GDPR); The Care Act (2014); Data Protection Act (1998); Human Rights Act (1998); The Freedom of

		Information Act (2000); The Equality Act (2010); Public Interest Disclosure Act (1999), DOH (2003) Confidentiality NHS Code of Practice. <ul style="list-style-type: none"> • Storage of confidential information.

Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aim of the unit is for learners to understand the health and safety responsibilities within their role, how to manage and carry out risk assessments and the importance of complying with health and safety requirements.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Know about the current legislative framework for health and safety.	1.1 Explain the legislative framework for health and safety in a health and social care setting. 1.2 Analyse how policies, procedures and practices in own setting meet health and safety requirements.	<ul style="list-style-type: none"> Care Quality Commission, Health and Safety Executive and Local Authorities; Health and Safety at Work etc Act 1974; Control of Substances Hazardous to Health Regulations 2002 (COSHH). Staff training, safe access and egress, equipment maintenance, welfare provision for staff. Management of Health and Safety at Work Regulations (1999), Electricity at Work Regulations (1989), Food Safety Act (1990), Food Hygiene Regulations (2014) Workplace (Health, Safety and Welfare) Regulations (1992), Personal Protective Equipment at Work Regulations (1992),

		<p>Reporting on Injuries, Diseases and Dangerous Occurrences (2013), Health and Social Care Act (2012), Human Medicines Regulations (2012) Regulatory Reform (Fire Safety) 2005</p> <ul style="list-style-type: none"> • Own Role: record keeping, reporting, compliance, audits, update risk assessments, dealing with noncompliance. • Employer and Employee responsibilities
<p>2. Understand the importance of compliance in relation to health and safety.</p>	<p>2.1 Explain how to support others to comply with health and safety requirements. 2.2 Explain the consequences of noncompliance with health and safety requirements. 2.3 Explain the importance of record keeping in relation to health and safety.</p>	<ul style="list-style-type: none"> • Authorities; improvement notices, prohibition notices; prosecution • Supporting others: health and safety as part of the agenda in meetings, posters, role model, responsibilities. • Noncompliance: staff updates, training. Potential action taken by HSE, local. • Record keeping; data protection. CQC standard number 20. Records are a part of a legal process, provide audit trail. Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013. • Implementation: risk management; contribute to policy writing; HSE's (steps to risk Management).
<p>3. Understand risk assessment processes related to health or social care.</p>	<p>3.1 Describe the range of risk assessments used in health and social care settings. 3.2 Carry out a risk assessment. 3.3 Analyse how to work with individuals and others to manage potential risks and hazards. 3.4 Demonstrate how to implement the outcomes of a risk assessment. 3.5 Apply techniques to review own and others practice in promoting a balanced approach to risk assessment.</p>	<ul style="list-style-type: none"> • Risk assessment processes: identifying risks and potential hazards within health and social care environments; identifying who might be at risk; the level of risk; recording the findings • 5 steps of Risk Assessment: identify hazards and risks, decide who might be harmed and how, evaluate the risks and decide on precautions, record your findings and implement them, review your risk assessment and update if necessary • Risk assessment: hazard identification, potential severity of harm resulting from each

		<p>hazard, likelihood/ probability of each hazard causing harm, critical controls,</p> <ul style="list-style-type: none"> • Calculating the degree of risk: likelihood of something happening, scale of 1 to 5 (1 is not very likely; low risk, 3 moderate risk, 5 means very possible or even probable) • Controlling risks: ways to minimise/remove the risk; possible actions to remove/reduce risk (e.g. raising awareness of hazards, use of safety equipment, modifying operational procedures, modification of an activity/process) • Hazards: relating to the physical environment, equipment, infections, substances, working conditions, working practices, security systems Harm and abuse: possibility of, eg abuse, injury, acquired infection, psychological distress, inappropriate care planning, exposure to danger, stress, loss of/damage to, eg belongings, premises Setting: types, eg residential care, hospital, day care, pre-school, infant school, childminder, clinic, surgery, any location where an individual receives care services (including in own home or the community); public environment, eg retail area, swimming pool, public park, sports ground, beach, transport Individuals: those receiving care; workers in a setting: care staff (based in setting, visiting setting), support staff (eg caterers, cleaners, administrative), visitors (eg relatives, friends, volunteers) Users of health and social care services: as relevant to setting, eg patients, older people, people with learning disabilities, young people, young children, babies, those with physical disability
--	--	--

		<p>or sensory impairment, people with mental health problems</p> <ul style="list-style-type: none"> Monitoring effectiveness of controls: procedures for controlling risks; review time scales of risks and controls; record keeping; roles of health and safety officer and care workers; policies and procedures.
<p>4. Be able to review health and safety practices, policies and procedures.</p>	<p>4.1 Evaluate the effectiveness of health and safety practice, policies and procedures in the work setting.</p> <p>4.2 Recommend changes to practices, policies and procedures to ensure safety and compliance in the work setting.</p>	<ul style="list-style-type: none"> Audit, and evaluation of health and safety activities in own workplace, document the process. Currency of practice; knowledge of the need for compliance; updating staff; role modelling; ongoing monitoring and review

Assessment

To achieve a ‘pass’ for this unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria.

Learning Outcomes to be met	Assessment Criteria to be covered	Assessment type	Word count (approx. length)

ASSESSMENT PROCESSES IN HEALTH AND SOCIAL CARE SETTINGS

Unit Reference Number	L/650/1136
Unit Title	Assessment Processes in Health and Social Care Settings
Unit Level	4
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aims of the unit are to develop learners' knowledge of forms of assessment, to develop their reviewing and planning skills when carrying out assessments, and how to meet the needs of individuals accessing services.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Know about approaches used in the assessment process for care provision.	1.1 Explain the purpose of different assessment models. 1.2 Describe the purpose of assessment tools used in health and social care. 1.3 Analyse how partnership working can support the assessment process.	<ul style="list-style-type: none"> Care and support planning; models of assessment (Smale et al 1993); The questioning model; The procedural Model; The Exchange Model. Needs led assessment; User-led assessment; single assessment process; risk assessment. Valuing people's plans. Care Programme Approach. End of life care/advance care planning Assessment tools e.g.: Pain Assessment scales; Patient Health Questionnaires; Glasgow Coma Scale; scales which measure activities of daily living; Waterlow Score,

		<p>Height, weight, Nutritional Assessment. Definitions and categories of need</p> <ul style="list-style-type: none"> • Assessment of risk; sharing of resources; sharing of knowledge; agreed outcomes and goals, reducing costs; meeting the needs of individuals accessing services.
2. Know how to lead assessments for care provision.	<p>2.1 Explain how to use person centred ways of working to support individuals to participate in the assessment process.</p> <p>2.2 Explain how to undertake an assessment.</p> <p>2.3 Explain when to use the referral process for individuals.</p>	<ul style="list-style-type: none"> • Expert Patient Programme; encouraging the client voice, advocacy requirements, translator/interpreter. • Capacity. • Referrals to other services/partnership working • Importance of language used in assessments Collaborative working relationship • The multidisciplinary context. • Empowerment and anti-discriminatory practice • Referral: practitioner involvement, areas of expertise, needs led, individual preference
3. Know how to manage the outcomes of care assessments.	<p>3.1 Explain how to develop a care or support plan in collaboration with the individual.</p> <p>3.2 Explain how to evaluate the effectiveness of the assessment process and outcomes.</p> <p>3.3 Explain how to develop an action plan to address any changes following an assessment review.</p>	<ul style="list-style-type: none"> • Developing care plans/support plans to meet individual requirements. Meetings, encouragement of individual involvement to make choices and decisions about their care. Planned interventions need to provide positive outcomes. Action planning to address findings. Elements of a competent assessment; person centred; valid, reliable, culturally sensitive, avoidance of jargon, inclusive
4. Be able to advise others about the role of assessment.	<p>4.1 Demonstrate how to formally instruct others about the assessment process.</p> <p>4.2 Demonstrate ways in which to help ensure others understand the functions of assessment tools.</p> <p>4.3 Assess staff understanding of the impact of assessments on individuals and their families.</p>	<ul style="list-style-type: none"> • Staff Instruction resources: e.g a supervision session, a handout, PowerPoint presentation, leaflet or any other medium appropriate to staff training and development. • Assessment planning and review, how and when assessment is carried out, positive and negative impacts of assessment e.g. social

		<p>dynamics; living arrangements; optimising independence, person centred ways of working, the use of effective communication, inclusion,</p> <ul style="list-style-type: none"> • Assessment of staff understanding of the impact of assessments on individuals and their families.

RESOURCE MANAGEMENT IN HEALTH AND SOCIAL CARE

Unit Reference Number	M/650/1137
Unit Title	Resource Management in Health and Social Care
Unit Level	4
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aim of the unit is for learners to understand the fundamentals of human resources and team management, as well as how organisational resources are managed in respect to regulation, inspection and finances.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Know about the purpose and objectives of human resource management.	1.1 Explain the purpose of human resource management. 1.2 Explain the objectives of human resource management.	<ul style="list-style-type: none"> ● Staffing ● Employee compensation ● Discipline ● People – process - performance ● Workforce planning ● Talent management ● Employee engagement ● Performance management
2. Understand key aspects of managing others in the workplace.	2.1 Describe management and leadership styles. 2.2 Explain the importance of supervision and appraisal. 2.3 Explain the importance of recruitment and retention of staff.	<ul style="list-style-type: none"> ● Leadership styles; autocratic; democratic; laissez-faire. Development and supervision. Aims of supervision. Appraisal; situational leadership; leading by example; leading by direction.

	<p>2.4 Describe theories of team development. 2.5 Analyse how to manage the impact of change.</p>	<ul style="list-style-type: none"> ● Recruitment and retention strategies. Legislation and policy context. Vetting and Barring Scheme. ● Induction programme; legal aspects; organisational context; health and safety, infection control; food handling; first aid, moving and handling. ● Tuckman's group theory (1965), Belbin's Team Roles, managing meetings Social Care Institute of Excellent Best Practice guidelines. Service users /patient meetings. ● Change management influences: insecurity, loss, confusion, reduced competency, non-compliance. Some will be proactive and engage. Accommodate all experiences.
<p>3. Understand the regulation and inspection of health and social care services.</p>	<p>3.1 Explain the regulatory system that underpins service delivery. 3.2 Describe the process of inspection for health and social care services.</p>	<ul style="list-style-type: none"> ● Care Quality Commission key lines of enquiry; underpinning legislation; sector specific requirements inspection; regulation ● Standards and policies to support key inspections and unannounced inspections. Surveys, what inspectors do. National Minimum standards
<p>4. Understand the management of financial resources.</p>	<p>4.1 Explain the principles of budget management. 4.2 Analyse the systems used to manage finances in health and social care. 4.3 Explain the sources of funds available. 4.4 Analyse factors affecting funding allocation.</p>	<ul style="list-style-type: none"> ● Cost benefit analysis; fixed and variable costs, auditing expenditure, budgetary profiling. Involving members of staff in managing budget. ● Development of incentive plans to avoid carelessness. Capital expenditure. Revenue expenditure. Hire purchase, lease, loans. ● Resource availability; priorities; competing priorities; needs led; market influences.

Assessment

To achieve a 'pass' for this unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria.

LEVEL 5 UNIT SPECIFICATIONS

WORKING IN PARTNERSHIP IN HEALTH AND SOCIAL CARE

Unit Reference Number	R/650/1138
Unit Title	Working in Partnership in Health and Social Care
Unit Level	5
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aim of this unit is to provide learners with the underpinning skills and knowledge required to develop productive and new partnership working opportunities within their own and other organisations.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Understand the features of partnership working.	1.1 Describe key elements of partnership working with: <ul style="list-style-type: none"> • external organisations • other practitioners • colleagues • the individual • families 1.2 Evaluate the importance of partnership working with: <ul style="list-style-type: none"> • external organisations • other practitioners • colleagues • the individual 	<ul style="list-style-type: none"> • Elements: Joint agreements, good communication, strong leadership and trust between partners. Health and Social Care Act (2012), openness, trust, shared goals and values. Consistency of approach and avoidance of duplication. • Better outcomes: Service user is central to care plan. Mutual respect; constructive approach; learn from each other, wider collaboration, additional funding, mutual advantage and resources. Meets statutory requirements; coordinated packages of care; Voluntary sector involvement.

	<ul style="list-style-type: none"> • families <p>1.3 Explain how to overcome barriers to partnership working.</p> <p>1.4 Explain how to deal with conflict that may occur in partnership working.</p>	<ul style="list-style-type: none"> • Barriers to partnership working: resistance to change, poor morale, different pay scales, staff shortages, costs, time for meetings, priorities and cultures, pre-existing views, use of professional jargon, misunderstandings, withholding information, poor sense of mission, joint employment. Different agendas and a lack of clear structure. Imbalances within the group – of power, of access to resources, of knowledge and understanding of the issues. • Overcoming barriers: improved communication; clarity about roles, engaging families. Person Centred care. National Voices charity. Active participation, joint education, meeting regularly, challenging discrimination. • Importance: improves experiences for individuals, reduces barriers to resources; attract more funding from a diverse range of sources; Service delivery is often more effective, improved wellbeing of service user. Holistic approach. Involvement of relatives in care planning processes, person centred care.
<p>2. Understand how to establish and maintain working relationships with others.</p>	<p>2.1 Evaluate procedures for effective working relationships with others.</p> <p>2.2 Analyse common objectives used when working with others within the boundaries of own role and responsibilities.</p>	<ul style="list-style-type: none"> • Agreement of common objectives, goals and targets; use of established tools, processes and procedures. • Use of SMART (Specific, Achievable, Measurable, Realistic, Timebound) objectives; realistic approach; maintain standards; understanding; clarification; use of jargon/acronyms; recognition of boundaries; clear communication.
<p>3. Understand how to evaluate partnership working.</p>	<p>3.1 Explain the contribution learners can make to enhance partnership working.</p> <p>3.2 Evaluate own strengths and weaknesses in relation to partnership working.</p> <p>3.3 Describe ways to improve own practice in</p>	<ul style="list-style-type: none"> • Role and Responsibilities: keep an open mind, respect other roles; collaboration, open communication channels, liaison with partnerships, accountability, setting objectives for staff, non-judgmental; assertiveness,

	<p>relation to partnership working.</p> <p>3.4 Explain how to review the effectiveness of partnership working in achieving the agreed outcomes of working together.</p>	<p>negotiating, confidence. Care Act 2014. Effective team work</p> <ul style="list-style-type: none"> ● Conflict: look at issues objectively; techniques of problem-solving, Bargaining, Cooperative conflict can contribute to effective problem solving. Challenge discrimination, reporting concerns ● Evaluate: appraisal systems and outcomes, feedback from families and friends of the service user. Monitor (Independent regulator) ● Development plan: establishing and maintaining partnership working, approaches to partnership working, understanding of partnership working. ● Own contributions, leadership style. Reflection on practice ● Measure: service receipt and impacts of service on recipient of care, review of care plan
<p>4. Know how to work with others to support organisational innovation and growth.</p>	<p>4.1 Describe aspects of an organisation that are no longer effective in providing a person-centred service.</p> <p>4.2 Explain how to work with others to identify opportunities for growth and development, or redesign, as a service and a business.</p> <p>4.3 Describe how to maintain a culture that supports innovation, change and growth in relation to the service provided.</p> <p>4.4 Describe how to maintain a culture that recognises the resources available in the expertise of those using or working in the service.</p> <p>4.5 Explain the importance of entrepreneurial skills in ensuring that the market is able to meet future demand for adult care services.</p>	<ul style="list-style-type: none"> ● The skills and knowledge required to ensure that the service is able to recognise and proactively adapt to trends, gaps and improvements in the provision of care and support ● Involvement of key stakeholders; team meetings; shared goals; roles and responsibilities; analysing service delivery methods, comparing outcomes to objectives/goals ● Sharing goals; identifying innovate ideas; listening to team members, shared responsibilities, delegating; roles and responsibilities, changing workload. ● Forward planning; currency and validity of service delivery; market leader; awareness of opportunities/threats.

Assessment

To achieve a 'pass' for this unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria.

MANAGING THE SAFEGUARDING AND PROTECTION OF VULNERABLE INDIVIDUALS

Unit Reference Number	T/650/1139
Unit Title	Managing the Safeguarding and Protection of Vulnerable Individuals
Unit Level	5
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aim of this unit is to provide learners with an understanding of the legal framework for safeguarding and protecting vulnerable individuals, whilst developing the knowledge and skills required to manage and develop staff understanding of this critical area. Learners will become aware that, because of the changing and dynamic nature of safeguarding, the need to manage, monitor and update their knowledge of safeguarding issues is vital in order for them to perform their role legally and effectively.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Understand the legal framework, regulations, policies and procedures that support the safeguarding and protection of vulnerable individuals.	1.1 Examine the concepts of: <ul style="list-style-type: none"> • safeguarding • protection. 1.2 Explain the legislative framework for safeguarding vulnerable individuals in health and social care. 1.3 Analyse how serious case reviews have influenced safeguarding and protection. 1.4 Explain the action to be taken in the event of suspected or actual abuse.	<ul style="list-style-type: none"> • Definitions of safeguarding and protection. Legislative framework for example: The Care Act (2014); independent advocates, follow up of suspected or actual adult abuse. Policy documents: Health and Social Care Act (2012); Our Health, Our Care, Our Say (2006) and putting People first (2007), No secrets and in safe Hands (2000), Vetting and Barring Scheme (2006), Local safeguarding Adults Boards, • Modernising social services white paper,

		<p>valuing people: A new strategy for learning disability in the 21st Century (2001).</p> <ul style="list-style-type: none"> • Serious case reviews: Winterbourne View Hospital; Orchid View; The Francis Report (2010) • Protocols and referral procedures in own setting. Confidentiality and consent
<p>2. Know about the management of a service which safeguards and protects vulnerable individuals.</p>	<p>2.1 Analyse how service provision supports individuals to take risks and make informed choices.</p> <p>2.2 Demonstrate how to provide information to others on signs and symptoms of abuse.</p> <p>2.3 Demonstrate how to inform others of the measures to be taken to avoid abuse taking place.</p> <p>2.4 Demonstrate how to articulate with others practice that maintains the safety and protection of vulnerable individuals.</p>	<ul style="list-style-type: none"> • Prepare a staff training resource; the training resource might include: Forms of abuse: physical, emotional, sexual, neglect and acts of omission, financial, discriminatory and institutional. • Abuse avoidance: culture of openness and dignity, clear complaints procedure roles of staff are clear; training in adult protection. • Steps to be taken: stages in responding to concerns about abuse • Policies: safeguarding, risk assessment, induction, CPD, equal opportunities, recruitment procedures. • Discuss practice with others: staff meetings, appraisals and supervision.
<p>3. Understand the importance of partnership working to protect vulnerable individuals.</p>	<p>3.1 Explain the agreed protocols for working in partnership.</p> <p>3.2 Evaluate the importance of working in partnership with others in relation to safeguarding and protection.</p>	<ul style="list-style-type: none"> • Partnership working, safeguarding boards, local authorities, the police and the NHS, and local community members. Safeguarding adults – A National Framework (2005) • Evaluate efficiency: shared objectives and goals, service user involvement in planning; satisfaction surveys etc
<p>4. Understand how to review procedures and practices that promote safeguarding of vulnerable individuals.</p>	<p>4.1 Assess the importance of the involvement of individuals in the review of systems and procedures in services.</p> <p>4.2 Review a work setting's procedures and practice against current legislation and policy in relation to safeguarding and protecting vulnerable individuals.</p>	<ul style="list-style-type: none"> • Challenge practice: unsafe practice, whistle blowing, Public Interest and Disclosure Act (1998) reporting poor practice, record • Recommend to staff and management any proposals for improvement.

Assessment

To achieve a 'pass' for this unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria.

HEALTH EDUCATION AND PROMOTING WELLBEING

Unit Reference Number	D/650/1140
Unit Title	Health Education and Promoting Wellbeing
Unit Level	5
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

This unit will develop learners understanding of approaches to health education and the methods that are used to identify health inequalities. Theoretical models using health education to bring about behaviour change will be examined and learners will be able to design a health education campaign.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Understand approaches to health education.	1.1 Evaluate the concept of health and ill health. 1.2 Compare and contrast models of health. 1.3 Analyse factors affecting health and well-being. 1.4 Analyse the connection between diet, exercise and health. 1.5 Evaluate the role of media in influencing attitudes to health. 1.6 Explain the terms: <ul style="list-style-type: none"> • health education • health protection • disease prevention. 1.7 Explain approaches to health promotion.	<ul style="list-style-type: none"> • Concept of health and ill health: World Health Organisation (WHO) definition • Medical and social models of health • Definition: World Health Organisation; alternative definitions; criticisms • Factors: lifestyle, exercise, substance abuse, drinking, health practices social class; age; culture, gender, sexuality, financial stability; employment status, housing, pollution, workplace health, physical factors • Role of the media: positive/negative influence, impact on self

		<ul style="list-style-type: none"> • Definition of key terms: health education, health protection, disease prevention. • Approaches: e.g.: medical model; behaviourist; educationalist; empowerment; fear
2. Understand models of behaviour change.	<p>2.1 Explain two models of behaviour change that have been used in recent national health education campaigns.</p> <p>2.2 Evaluate the effectiveness of different models of behaviour change in relation to health and well-being.</p>	<ul style="list-style-type: none"> • Models of behaviour change: • Models: health belief model, theory of reasoned action, theory of planned behaviour, stages of change model, social learning theory • Social and economic context: eg financial, social class, peer pressure
3. Be able to carry out a health education campaign.	<p>3.1 Define the rationale of a health education campaign.</p> <p>3.2 Carry out a health education campaign, relating it to models of behaviour change.</p> <p>3.3 Evaluate the effectiveness and impact of the health education campaign.</p> <p>3.4 Explain ethical issues involved in the health education campaign.</p>	<ul style="list-style-type: none"> • Purpose – promotion of healthy ideas and concepts to motivate people to change behaviour and adopt healthy lifestyle choices, designed to be proactive in tackling health-related challenges and issues • Aims of health-promotion activities, e.g. raise health awareness, encourage safety and reduce accidents, reduce number of people smoking, encourage healthy eating habits, reduce alcohol intake, identification of target audience; liaison with partnerships/others where necessary, planning schedule, action plan, design of material; involvement of others, • Different types of health promotion and health-promotion activities : health-promotion campaigns – local or national initiatives targeted at large audiences with the aim of raising awareness of health-related issues, use of different forms of media • Gain access: permissions etc, pre-set criteria including feedback mechanisms, cost, resources, and timescales. • Research using different sources, e.g.

		<p>websites, books, newspapers/magazines, leaflets, journals, TV programmes, Department of Health and Social Care, health professionals and service users, gathering data to understand the health topic, e.g. statistics (national, local), case studies</p> <ul style="list-style-type: none"> • Health-promotion materials, e.g. posters, leaflets, games, presentations, wall displays • Target groups, e.g. children, adolescents, employees, sports or social clubs, type of service user • Health-promotion materials appropriate to target group, e.g. language, images, activity, position of display, timing, ethics, form of media, how materials could be adapted for different target groups • Evaluation and reflection of personal practice, skills used, quality measures, benefits to the individual, aims and objectives, outcome measures/pre-set criteria, strengths and weaknesses, aspects to improve • Ethical issues: to consider, eg rights of individuals, rights of others, confidentiality
--	--	---

TEAM MANAGEMENT IN HEALTH AND SOCIAL CARE

Unit Reference Number	F/650/1141
Unit Title	Team Management in Health and Social Care
Unit Level	5
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

The aim of this unit is for the learner to show that they can manage and supervise a team and develop their performance in the health and social care setting. The unit also explores recruitment in health and social care settings.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Understand the characteristics of effective team work.	1.1 Analyse theories of team development. 1.2 Suggest strategies to overcome common team work challenges. 1.3 Evaluate the impact of leadership styles on a team. 1.4 Assess the importance of accountability and trust in a team. 1.5 Compare and contrast methods of managing conflict within a team.	<ul style="list-style-type: none"> Challenges for a team: Tuckman’s theory of group development, respect differences; role recognition, Belbin’s Team roles. Features of a team: goals, roles, procedures, communication, relationships and leadership. Solutions to challenges: communication, negotiation, joint working with professionals, task sharing, assertiveness, strong leadership and direction. Theories of management styles: Trait Theory, Authoritarian/Autocratic, Democratic/Participative, Laissez- faire. Accountability: be consistent, honest.

		<ul style="list-style-type: none"> • Conflict: disagreements, personal values and beliefs.
<p>2. Know how to support a positive culture within a team in a health and social care setting.</p>	<p>2.1 Explain the components of a positive culture within a team.</p> <p>2.2 Describe how systems and processes support a positive culture in a team.</p> <p>2.3 Explain how to foster creative and innovative ways of working in a team.</p>	<ul style="list-style-type: none"> • Shared ways of working; communication; values/beliefs; valuing contribution from others; inclusiveness and openness • Shared records; team meetings; supervisions/appraisals; induction and staff training • Creative and innovative methods of working: communication; dynamic approach; person; centred care; integrated workforce agenda; priorities; co-working; rota systems; challenging routine practices
<p>3. Understand how to agree performance objectives with the team.</p>	<p>3.1 Explain the links between individual, team organisational objectives.</p> <p>3.2 Explain factors which influence forward planning in a team.</p> <p>3.3 Explain how to identify areas of individual and team responsibility in achieving objectives.</p> <p>3.4 Explain how to identify and agree aims and objectives to promote a shared vision within own team.</p> <p>3.5 Evaluate how the vision and strategic direction of a team influences team practice.</p>	<ul style="list-style-type: none"> • Beliefs and values, personality, information systems, appraisal, training, creativity, transformational leadership, culture of interest, developmental opportunities. • Shared methods of working; communication; values and beliefs; working methods between team members; valuing contribution from others; inclusiveness and openness • Supervision; appraisal; sharing information; communicating; listening to others; team working to common goal/objectives • Transformational leadership; shared values; empowerment; co-production; developing other people; openness; honesty; strategic planning; ongoing monitoring and review.
<p>4. Be able to manage team performance.</p>	<p>4.1 Apply techniques to monitor progress in achieving team objectives.</p> <p>4.2 Demonstrate how to provide constructive feedback when underperformance is identified.</p> <p>4.3 Explain how team members are managed when performance does not meet agreed requirements.</p>	<ul style="list-style-type: none"> • Communicate strategy and vision, identify aims and objectives, sharing of skills, roles and responsibilities, and celebrate achievement. • Progress towards objectives, quality of provision, service user feedback. • Underperformance: areas to improve on, Set clear expectations and match staff to the skills required, performance reviews, training,

<p>5. Know about recruitment and selection processes in health and social care.</p>	<p>5.1 Explain the impact of legislative and regulatory requirements on recruitment and selection processes in health and social care settings.</p> <p>5.2 Analyse how serious case reviews and inquiries have contributed to the establishment of policies and procedures within recruitment which are necessary to safeguard vulnerable people.</p> <p>5.3 Explain how to establish the criteria that will be used in the recruitment and selection process.</p> <p>5.4 Describe how to involve others in the recruitment process.</p>	<p>mentorship. Disciplinary action/ stages.</p> <ul style="list-style-type: none"> Equality Act 2010; General Data Protection Regulation (GDPR) 2018, Health and Safety etc Act 1974; Safeguarding Vulnerable Groups Act 2016, The National Minimum Wage Regulations 2016, Working Time Directive 1998, Working Together to Safeguard Children 2013, working hours, visas, advertising standards; qualification requirements; safeguarding-DBS; national initiatives; apprenticeships, traineeships, internships and returnships Use of social media networks; internal to the organisation; newspapers and journals; local radio; television; networks; agencies; head hunters; recommendation/referrals, recruitment fairs, people leaving the services, job centres. Involvement through effective communication methods; person centred ways of working; identification of needs, preferences and abilities; advocacy.

PROFESSIONAL SUPERVISION PRACTICE IN HEALTH AND SOCIAL CARE

Unit Reference Number	H/650/1142
Unit Title	Professional Supervision Practice in Health and Social Care
Unit Level	5
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

Professional Supervision is a legal and regulatory requirement of health and social care settings. This unit covers theories relating to supervision and the purpose and processes of professional supervision, together with performance management and methods of managing and addressing conflict.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Understand professional supervision in health and social care settings.	1.1 Evaluate theories and models that underpin the practice of professional supervision. 1.2 Explain the legal and regulatory codes of practice that relate to professional supervision. 1.3 Explain how evidence-based practice informs professional supervision.	<ul style="list-style-type: none"> • What is professional supervision? The scope and purpose of it; meet standards of practice and improve the quality of service. • Models: e.g.: Developmental models, scaffolding, integrative models, and solution focused models. • Legislation, codes of practice e.g.: The Care Act (2014) Outcome 14, regulation 23. • Supporting information and guidance; supporting effective clinical supervision. • Evidence based practice; new knowledge applied to care practice.

<p>2. Know how to agree on the framework for a professional supervision process.</p>	<p>2.1 Explain how to overcome power-imbalance in professional supervision. 2.2 Explain the boundaries and parameters for carrying out supervision with the supervisee.</p>	<ul style="list-style-type: none"> • The performance management cycle; planning, develop, perform, and review Performance against targets, SMART targets. • Agreement in relation to timing, objectives, confidentiality, limitations, considerations; responsibilities of both parties; reporting mechanisms.
<p>3. Know how to provide professional supervision.</p>	<p>3.1 Describe how to provide constructive feedback to the supervisee. 3.2 Describe how conflict can be managed within supervision. 3.3 Analyse methods that can be used to measure performance. 3.4 Explain how to review and agree performance targets.</p>	<ul style="list-style-type: none"> • Constructive feedback; reviewing the quality of practice; ways to improve practice; detailed feedback • Personal power (knowledge skills and competence). Organisational power: reward power, coercive power, legitimate power, information power. • Target setting; aims and objectives; performance review; 360 review; monitoring; observation. • Agreeing details regarding professional supervision: confidentiality, professional boundaries, roles and accountability. Time and location. Evidence that can be presented for supervision and preparation the supervisee needs to do.
<p>4. Know how to reflect on own practice in professional supervision.</p>	<p>4.1 Explain how to use tools to gather feedback on own professional supervision practice. 4.2 Describe how to reflect on feedback to identify changes to be made to own practice.</p>	<ul style="list-style-type: none"> • Feedback, positive praise and constructive feedback. Staff development. Use of staff appraisals to review. • Potential for conflict during supervision; eg: task based conflict or relationship based conflict. Resolution through resolving conflict by conversation. • Feedback from staff. Measure own performance against standards, reflection on practice of supervision process.

Assessment

To achieve a ‘pass’ for this unit, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria.

Learning Outcomes to be met	Assessment Criteria to be covered	Assessment type	Word count (approx. length)
All 1 to 4	All ACs under LO 1 to 4	Coursework	3000 words

RESEARCH METHODS IN HEALTH AND SOCIAL CARE

Unit Reference Number	J/650/1143
Unit Title	Research Methods in Health and Social Care
Unit Level	5
Number of Credits	20
Total Qualification Time (TQT)	200 hours
Guided Learning Hours (GLH)	100 hours
Mandatory / Optional	Mandatory
Sector Subject Area (SSA)	1.3 Health and social care
Unit Grading Type	Pass / Fail

Unit Aims

This unit aims to develop learners' understanding of the purpose of research in the health and social care sectors and the implications and ethical issues relating to this research. Learners will be able to explore different research methodologies, enable them to plan and conduct their own research relating to a health or social care issue and evaluate the success of the outcomes.

Learning Outcomes, Assessment Criteria and Indicative Content

Learning Outcome – The learner will:	Assessment Criterion – The learner can:	Indicative content
1. Understand approaches to research in health and social care.	1.1 Explain the function of research in health and social care. 1.2 Evaluate types of research methodology. 1.3 Describe methods of gathering data. 1.4 Describe tools to analyse and present data. 1.5 Explain how to assess the validity and reliability of data in research. 1.6 Analyse the importance of the validity and reliability of data used within research.	<ul style="list-style-type: none"> Function: identify need; highlight gaps in provision; plan provision; inform policy or practice; extend knowledge and understanding; improve practice; aid reflection; allow progress to be monitored; examine topics of contemporary importance. Types of research: quantitative; qualitative; primary; secondary Primary sources: questionnaires; structured and unstructured interviews; scientific experiment; formal and informal observation; measurements Secondary sources: information literacy, eg

		<p>website, journals, media, books, e-resources; literature review, eg extract information, interpret, analyse, synthesis; data, eg graphs, tables, statistics</p> <ul style="list-style-type: none"> • Methods to gather data: checklists and scales; questionnaires, experiments, observation, interviews, action research, case study. • Tools to analyse data; tables, charts, lists. • Reliability and validity.
<p>2. Be able to plan a research project relevant to a health and social care setting.</p>	<p>2.1 Determine a research topic in a chosen area of interest. 2.2 Develop the aims and objectives of the research project. 2.3 Explain ethical considerations that apply to the area of the research project. 2.4 Complete a literature review of chosen area of research.</p>	<ul style="list-style-type: none"> • SMART aims and objectives; <ul style="list-style-type: none"> ○ Terms of reference ○ Rationale for selection, ○ Key milestones, ○ Project goals, ○ Schedule • Ethics (confidentiality; agreements with participants; research governance (HRH Health Research Authority), reading critically, Ethics: permissions and approvals, consent, confidentiality. • Elements: Statement of problem, • Literature review, conceptual framework, research question, hypothesis, terms of reference, methodology, timelines, scope of work and budget.
<p>3. Be able to carry out a research project relevant to a health and social care setting.</p>	<p>3.1 Develop relevant research questions. 3.2 Formulate a detailed plan for the research project. 3.3 Determine appropriate research methods for the research project. 3.4 Conduct the research using identified research methods.</p>	<ul style="list-style-type: none"> • Topic to be explored; literature review, conceptual framework, research question, hypothesis, terms of reference, methodology, timelines, scope of work and budget. Ethics: permissions and approvals, consent, confidentiality.

<p>4. Be able to make informed recommendations.</p>	<p>4.1 Analyse the data and present findings. 4.2 Formulate recommendations related to the chosen research topic 4.3 Reflect how own research findings substantiate initial literature review. 4.4 Make recommendations related to area of research. 4.5 Identify potential uses for the research findings within practice.</p>	<ul style="list-style-type: none"> ● Analysis: organisation and interrogation of data ● Initial analysis: detect patterns, themes, and relationships in the information, test hypotheses, draw conclusions and build recommendations. ● Report writing and dissemination: To share findings and encourage uptake ● Potential uses for findings in practice, draw conclusions from the data. ● Discuss the actions that future researchers should take as a result of the Project. ● Benefits to the organisation.
